United States, 1863.

## EXTRACTS.

## THE MEDICINAL VALUE OF LEMONS.

"While you are giving people simple rules for preserving their health, why don't you tell them about the use of lemons?" An intelligent professional man asked me the other day. He went on to say that he had long been troubled with an inactive liver, which gave him a world of pain and trouble, until recently he was advised by a friend to take a glass of hot water with the juice of half a lemon squeezed into it, but no sugar, night and morning, and see what the effect would be. He tried it and found himself better almost immediately. His daily headache, which medicine had failed to cure, left him, his appetite improved, and he gained several pounds in weight within a few weeks. After a while he omitted the drink, either at night or in the morning, and now at times does without either of them. The consequences and possibilities of the 'after-the-drink' service are apparent to all who know anything of military science, and make their station superb. One thing is certain, that a future war between Germany and any of its neighbours will not be conducted without its dog regiment, which, though not employed in concerted action, will perform service more valuable than the cats of ancient Egypt."

## TO BE LET.
